**Subject:** Mike Horse Dam Repository

To Whom this may Concern:

I am a property owner along the banks of the Blackfoot River. I strongly oppose the suggested repository sites that are recommended for the Mike Horse Dam contaminated tailings. Please consider the option not to move the contaminated tailings, rather, use the funds available to secure containment in its' present location. So much is at stake with this super-fund site and the future of our beloved river ~we cannot afford to make further mistakes with the Blackfoot River!!!

We are all entrusted to be sure that future lands, and/or watersheds are not in jeopardy for the use and enjoyment of all man-kind.

Funds are available, the State of Montana can afford to do the right thing.

Sincerely,  
Sandi Conroy
